

Environment Policy

Our Business

Corporate Express Australia Limited is a leading supplier of business essentials with sites across Australia and New Zealand. Our product offering includes office and computer supplies, business furniture, facility supplies, canteen and catering, liquor, IT solutions, promotional marketing, print services and education essentials.

Our Environmental Philosophy

Our philosophy towards environmental management is ingrained in every part of our business – from sourcing and supplying a range of environmentally-preferable products for customers to operating sustainable facilities and promoting environmentally responsible behaviour in all employees and contractors.

Our Environmental Commitment

We have a long standing commitment to reducing the impacts our operations have on the environment. Historically this commitment has been demonstrated through our involvement in various internal and external initiatives and programs.

The focus of these programs has been on reducing our most material areas of impact such as greenhouse gas emissions and waste management. Through the implementation of an EMS to ISO 14001 standards we are expanding this focus to bring us inline with global environmental management standards, allowing us to become an environmental leader in the business supplies industry.

- **Systems Management**

To provide the framework for effective integration of environmental objectives and targets into our day-to-day operations and management culture focusing on continual improvement and compliance with all relevant legal and voluntarily obligations.

- **Impact Management**

To minimise impacts on the environment which result from our activities, products and services by reducing and preventing consumption, emissions and polluting incidents.

- **Engagement**

To promote a strong environmental ethic as part of our corporate culture by encouraging and empowering employee, customer, supplier and shareholder engagement in the organisations environmental program.
